

Discover the Marais and Parisian young designers

The Marais is charming and authentic, but also chic, trendy and up-to-the minute, with both a number of large and beautiful mansions, illustrating the importance of the French Renaissance, and a huge selection of interesting boutiques and young designers.

*The Promenade des Sens® custom-made tour combines **cultural tourism (discovering interesting sites and architecture with amusing anecdotes about their history) and boutiques. We select a delightful mix of not to be missed boutiques or new concept-stores and up and coming young designers boutiques or workshops.***

We introduce you to young designers or passionate shopkeepers who are delighted to talk with you about their savoir-faire.

***The real Paris**, the “Paris des Parisiens”, this is the atmosphere of the tours that Marie-Bénédicte and her team, all native Parisians and passionate about their own city, are delighted to reveal to you.*

For your information, we do not accept any commission from the boutiques we visit, but we negotiate with some of them exclusive benefits and availability for our groups.

The balance between culture and shopping is fully tailored to your interests.

Each private tour is different in its contents, places visited, depending on you and occasional spontaneity!
